

Module: XT30/XT50 Control Panel Field Training

Intended Audience: Installation Technicians, Service Technicians and Programmers

Purpose: Provide attendees with an overview and introduction to DMP's XT Series; introduce the equipment, demonstrate the proper installation and programming methods.

Course Objectives: After successfully completing this course, attendees will:

- Understand the basic features of the panel
- Understand the proper way to install a DMP panel
- Understand the correct way to program a DMP panel to fit the job requirements
- Pass the necessary exams required for DMP XT30/XT50 system certification
- The ultimate objective is for each student to leave the class both confident and competent in their ability to design, install, program, test, and operate an XT30/XT50 system.

Course Time and Delivery: This course consists of a total of eight (8) hours of interactive classroom training, combining traditional classroom style teaching with hands-on training.

Training Materials and Equipment (provided by Dealer):

- Programming & Installation Guide, Programming Sheet, Tech Tips Card, User Guide. Simply order one part number, XT TRAINING for each student.
- One (1) working *panel and keypad per every three (3) attendees (*Provided by Dealer*)
- Meeting room set up classroom style (Table and three (3) chairs with power at each table)

Schedule:

- One Full Day
- 8:00 am Start time
- 10 minute breaks as needed
- One hour lunch break (Optionally provided by dealer)
- 5:00 pm Stop Time

* Panel choice is up to Dealer, based on which panel will be utilized the most.

Training times are estimated. Actual presentation and hands-on training times depends on needs of technicians attending classes.
