

STATEMENT OF COMPLIANCE - PCI

February 20, 2020

The DMP model XR550 control panel and 734B BIN Code Access Control Module meet the applicable requirements of the Payment Card Industry Data Security Standard (PCI DSS v3.2.1).

The Primary Account Number received from the card reader is truncated to the BIN code digits before being processed by the 734B module. Cardholder data is not stored by the module or panel as required by PCI DSS Requirement 3.

Account Data is not transmitted off-site over open, public networks in compliance with Requirement 4.

Current listing information for DMP products can be found at dmp.com/Compliance.

Best Regards,

A handwritten signature in black ink, appearing to read 'Brad Tucker', with a stylized flourish at the end.
