

MODEL 351 MOUNTING PLATE

Installation Sheet

DESCRIPTION

The 351 Mounting Plate is used when installing an XR150/XR550 Series panel into an existing enclosure.

COMPATIBILITY

- XR150/XR550 Series panels
- 714-8, 715-8, 714-16, and 715-16 Zone Expanders

WHAT'S INCLUDED

- One 351 Mounting Plate
- Hardware pack

INSTALLATION

1. Mount the XR150 or XR550 panel onto the upper section of the 351 Mounting Plate. Optional Zone Expanders can be mounted onto the bottom section of the mounting plate.
2. Install the 351 Mounting Plate with the panel in the enclosure.
3. Align the 351 Mounting Plate with the enclosure mounting holes.
4. Use the included Phillips head screws to tighten the mounting plate into place allowing for 1/2" clearance between the enclosure and panel PCB.
