

QUICK START GUIDE

SecurityBridge™ WAP

Use this guide to power up your wireless access point (WAP) and connect it to your cameras.

1 POWER IT UP

Connect the Ethernet cord from the ETHERNET port in the back of the WAP to your router. Connect the included power cord from the POWER port to a wall outlet not controlled by a switch.

2 CONNECT YOUR CAMERAS

Plug in your SecureCom Video™ indoor or outdoor cameras. The WAP and cameras will automatically connect allowing you to view live and recorded video clips in your Virtual Keypad App™.

3 VIEW VIDEO IN YOUR APP

Log in to your Virtual Keypad App™ and tap the **CAMERAS** menu item to view a list of cameras connected to your system.
