1301M ENROLLMENT READER

## *Installation Sheet*

DESCRIPTION

The 1301M is a 13.56 MHz MIFARE® DESFire® admin reader that supports high security encryption technology. The 1301M connects directly to a computer USB port and requires no additional software. The 1301M allows users to scan a compatible credential rather than manually entering the user code number.

COMPATIBILITY

- DMP MIFARE® DESFire® cards and credentials CSK-2 and DE2

WHAT'S INCLUDED

- One 1301M Enrollment Reader

USE

1. Connect the 1301M to a standard USB port. The computer automatically recognizes the new hardware and installs the necessary drivers.
2. When you're ready to add an internal card number, click in the appropriate field and present a card or credential within one inch of the reader.
3. The 1301M inserts the internal card number where your cursor is located.
