

## XR100/XR500 August 2011

---

### **Version 208 Software Update**

The XR100/XR500 Version 208 (8/08/11) software is now available for download on the DMP Dealer Direct Website at <http://dmp.com/dealer>.

Effective September 6, 2011, all XR100 and XR500 Series panels will be manufactured with Version 208 (8/08/11) software. As of October 18, 2011, inventory for the XR100 and XR500 panels will be completely updated to 208 (8/08/11) software.

### **Features**

#### **CellComRT Remote Programming**

Version 208 (8/08/11) software now allows remote programming of XR100/XR500 panels from Remote Link over cellular communication using the CellComRT Cellular Alarm Communicator.

The CellComRT communicator must be updated to Version 101 software to support this feature. See CellComRT Technical Update (TU-0597) for complete information.

Remote programming will include upload and download of programming files, trapping of panels, request of events, and panel commands such as arming/disarming.

### **Obtaining the New Software**

XR100/XR500 Series software updates are available for download free of charge on the DMP Dealer Direct Website at <http://dmp.com/dealer>.
