New Features

The following new features have been implemented to support the XTL and XT30/XT50 Series panels Version 111 software. See the XTL and XT30/XT50 Series Version 111 (5/2/12) Technical Update (TU-0642) for additional information.

False Alarm Question

The Use False Alarm Question? (XT30/XT50/XTL/XTLN) option in System Options now defaults as enabled.

Remote Disarm

The Remote Disarm (XT30/XT50/XTL/XTLN) option in Remote Options now defaults as enabled to allow MyAccess™ or the Virtual Keypad App to remotely disarm the system.

Favorite Schedules (XT50 Panels Only)

Favorite Schedules allow you to set the times when your favorites activate.

New: Select to enter a Favorite Schedule. Up to 7 schedules can be entered per Favorite.

Favorite: Enter the Favorite number (F1-F20) to assign to a schedule.

Activate: Select the days and times to activate the Favorite using a 12-hour clock.

Apply: Select to save the new schedule.

Obtaining the New Software

Remote Link and System Link Version 1.63 (6/1/12) updates are available for download free of charge on the DMP Dealer Direct Website at <http://dmp.com/dealer>.
