

Remote Link and System Link

June 2014

Version 1.70 Software Update

Effective June 26, 2014, all Remote Link and System Link software is being manufactured as Version 1.70 (6/25/14). If your current Remote Link or System Link software is previous to Version 1.46, update to Version 1.59 before updating to 1.70 (6/25/14).

Feature

CellComSL Support

Remote Link now supports remote programming of the CellComSL Series Universal Alarm Communicator.

The CellComSL:

- Provides cellular communication to central station for a control panel
- Features Contact ID message capture, 4 zone inputs, or bell circuit monitoring
- Enables remote panel control using the Virtual Keypad App™
- Provides end user alerts of arming/disarming, alarm, and other events
- Add control of Z-Wave lights, locks, and thermostats with CellComSLCZ™

For more information on the CellComSL Series Universal Alarm Communicator see Spec Sheet LT-1361.

Obtaining the New Software

Remote Link and System Link updates are available for download free of charge on the DMP Dealer Direct Website at <http://dmp.com/dealer>.
