vk.securecomwireless.com Dealer Website
March 2015

## Version 1.1 Update

Effective March 11, 2015, the vk.securecomwireless.com Dealer Website has been updated to Version 1.1 (3/11/15).

Features

Improved Website Interface

The vk.securecomewireles.com Dealer Website has a new and enhanced user interface. In addition, the website now automatically changes formatting to fit your PC, tablet or smart phone display.

Navigation Sidebar

A navigation sidebar has been added that provides links to access the submenus within the SecureCom website and consists of the following links:

Search: You may search for users or Camera MAC addresses or enter a keyword for a global search within the SecureCom website.

Customers: Selecting a customer displays all programmed systems. When a system for that customer is selected, the System Information and System Analytics for that system are displayed.

Personnel: Displays your company admin and operator personnel.

Settings: Displays your company settings such as app key and logo.

Help: Opens the Help Files for the SecureCom website.
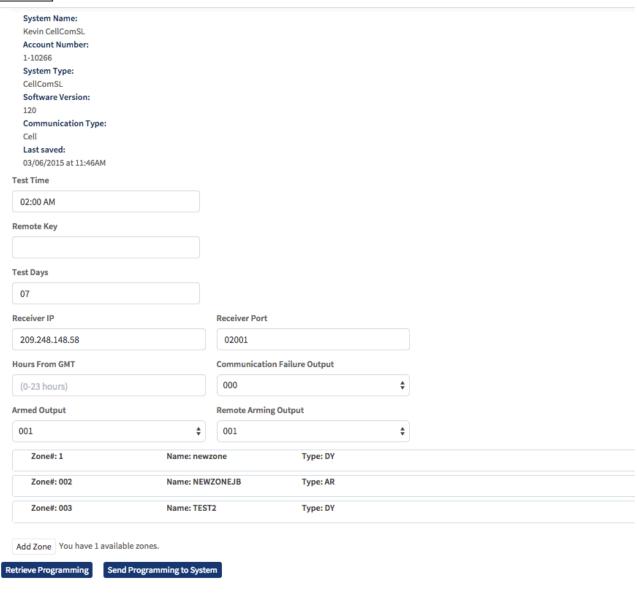

CellComSL Programming

Dealers can now program CellComSL Series Slave communicators from the vk.securecomwireless.com website.
