

## XT Series October 2016

### Version 125 Firmware Update

Version 125 (9/29/16) firmware is now available for download on the DMP Dealer Direct Website at <http://dmp.com/dealer>.

Effective November 7, 2016, the following control panels will be manufactured with updated Version 125 (9/29/16) firmware. As of December 16, 2016, all inventory for the following panels will be updated.

#### Compatibility

- XT30/XT50 Series Panels
- XTLC Series Panels
- XTLplus Series Panels

### Features

#### Multi-Socket Connection

XT Series Panels are now able to connect to Remote Link™ and the Virtual Keypad App™ while continuing to send messages and alarms. This new feature allows users to test central station connections without temporarily suspending communication.

#### Faster Wireless

Wireless speeds have been improved for XT50 and XTLplus Series Panels paired with the following keypads:

- 9800 Series Wireless Graphic Touchscreen Keypads with Version 109 (6/14/16) or higher
- 9060 Series Wireless Thinline Keypads with Version 200 (7/20/16) or higher

#### On Demand Monitoring Messages

XT Series Panels now send an S116 message (*On Demand Monitoring Started*) to the central station when users begin on demand monitoring services. Similarly, an S117 message (*On Demand Monitoring Stopped*) is sent when users discontinue on demand monitoring services. This feature allows central stations to accurately track when a system is being monitored.

### Obtaining the New Firmware

Firmware updates are available for download, free of charge, on the DMP Dealer Direct Website at <http://dmp.com/dealer>.

### 2G Network Shutdown

Do you have all your 2G accounts upgraded already? The end of 2G is near. On December 31st, 2016, all AT&T 2G systems will cease to operate. This will affect your XT and XTL Series panels with built-in GSM cell modules, as well as your 263G and 463G cellular modules.

For all SecureCom Wireless customers, we have customized reports available to you that list your current 2G communicators still in use.

Get your company's custom report by emailing [CustomerService@securecomwireless.com](mailto:CustomerService@securecomwireless.com) or calling us at 877-300-8030. Find out which of your accounts are still on 2G and update them before it's too late.
