

## 1139 Wireless Bill Trap Transmitter

November 2017

### Plastic Update

1139 Wireless Bill Trap Transmitters are being manufactured with an updated case design. Updated units will begin shipping immediately.

### Updated Case Design

The 1139 now features a black, two-piece housing design. Follow these directions to open and close the case:

1. Grip the device and place both thumbs on the bottom of the housing where it says PUSH TO OPEN.
2. Gently push down then forward until the cover slides off completely.
3. Close the case by sliding on the cover until it snaps into place, ensuring the cover is secured.

Effective November 17, 2017, 1139-I Wireless Bill Trap Transmitters will be discontinued. Firmware features remain the same.
