iOS Version 6.18.4

Effective May 14, 2019, the Virtual Keypad™ app is updated to Version 6.18.4 for iOS. The following features are available:

Features

XR Version 191 Expanded Temporary User Support

Start dates can now be added to a Temporary User. Once a Temporary User code has reached its expiration date, the user's status is changed to inactive. Temporary user codes can be configured in **User Codes**.

Siri Shortcuts

The Virtual Keypad app now supports using Siri to perform actions such as arming, disarming, and activating a favorite. For example, you can arm your system by saying: "Hey Siri, arm home."

Access and create Siri shortcuts by going to **Settings > Siri Shortcuts**.

Requirements

- Expanded Temporary User Support requires that XR Series panels are updated to firmware Version 191 or higher.

- Siri Shortcuts requires iOS 12 or higher. For information about iOS 12 compatibility and updating your device, refer to the Apple Support updates page at https://support.apple.com/ios/update.

Obtaining the New Software

Panel firmware updates are available from DMPDealerAdmin.com and DMP.com/Dealer_Direct.

Virtual Keypad app updates are available for download, free of charge, from the Google Play™ store and the App Store®.
