Version 2.28.0 Update

Effective August 26th, 2019, Dealer Admin™ (dealer.securecomwireless.com) is updated to Version 2.28.0. The following features are available:
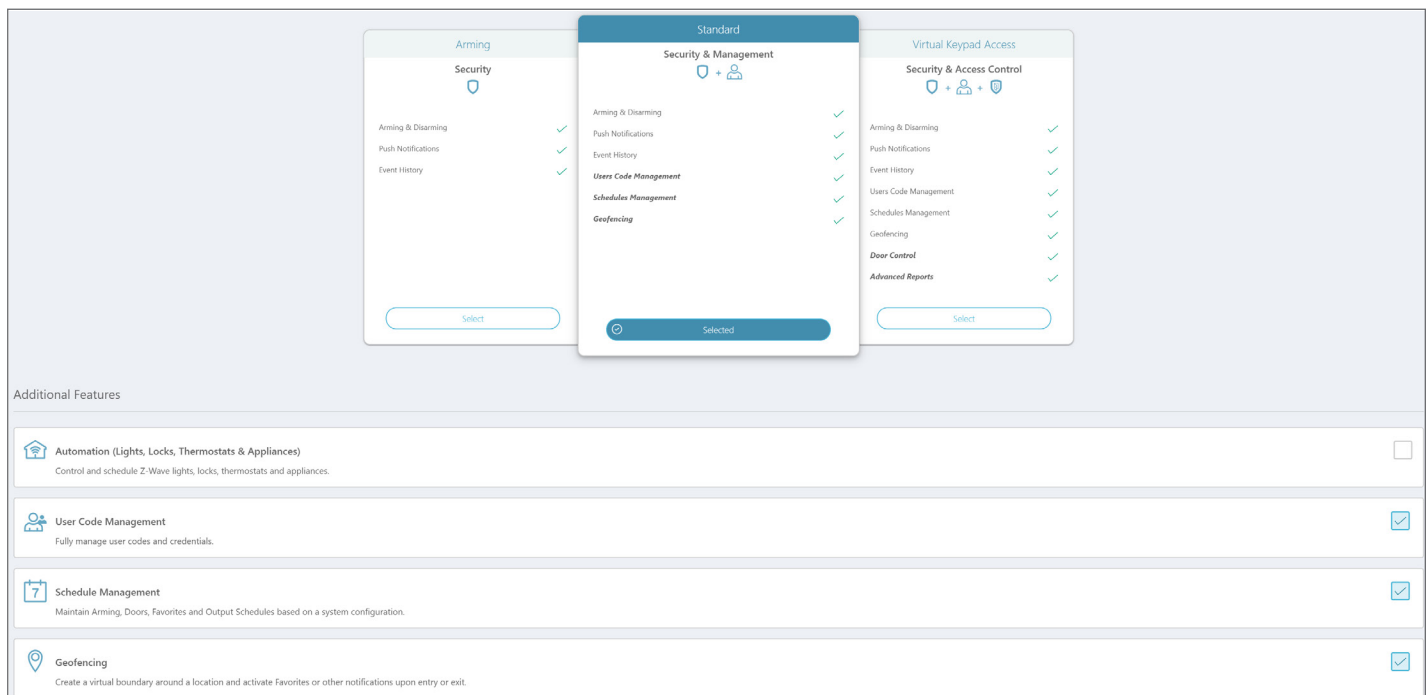

Features

SecureCom Pricing

Dealer Admin now includes pricing for SecureCom products according to your pricing tier. For example, when setting up an app with add-ons in Dealer Admin, the price that you pay for an item is displayed next to each feature. The total price is displayed at the bottom of the page and changes dynamically with your selections.

SecureCom Pricing is viewable by users with administrator permissions in Dealer Admin.

System Information Page Redesign (Beta)

Test the new look and feel of the System Information page. Improvements include a cleaner layout, a more intuitive interface, and a unified page structure. Changes to System Information will fully release in Dealer Admin on September 9th, 2019.

The New System Information Page
