

## HARDWARE UPDATE

### Hardware Update

Effective May 26th, 2020, all 714-8 Zone Expanders are shipping with Level E hardware. The following feature is available:

#### Expanded EOL Range

Updated Level E hardware supports an expanded EOL resistor range of 1k Ohm to 4.7k Ohm. All 714-8 Zone Expanders with updated hardware still ship with eight 1k Ohm resistors but can be installed with resistors from the expanded EOL range to support retrofit applications.

Level E 714-8 Zone Expanders do not require panel or expander firmware updates to use the expanded EOL range feature.

### Obtaining the New Hardware

To order the new 714-8 Zone Expander with updated Level E hardware, contact DMP Customer Service at 1-866-266-2826 or visit [buy.dmp.com](http://buy.dmp.com).
