Version 2.52.0 Update

Effective September 22nd, 2020, Dealer Admin is updated to Version 2.52.0. The following feature is available:

Feature Key Support

Dealer Admin now allows you to retrieve, view, and activate feature keys for XR550 Series panels in **Full Programming**. After a key is sent to the panel, upgraded features can be programmed in Dealer Admin.
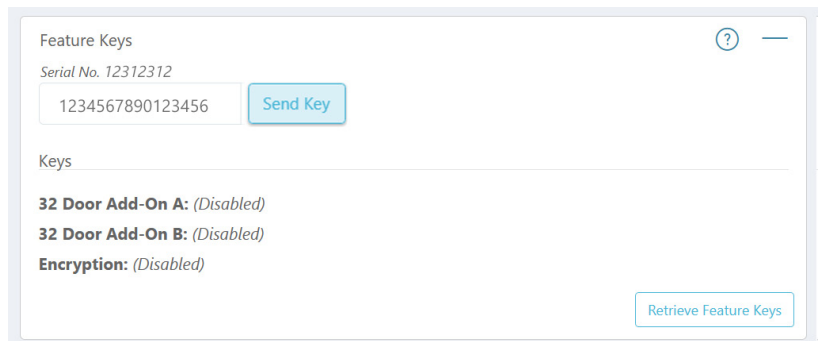

While all feature keys can be activated through Dealer Admin, the following can also be programmed:

FEATURE KEY	DESCRIPTION
32 Door Add-On A (64 total doors)	Add 32 more doors to the panel, increasing the maximum number of doors to 64.
32 Door Add-On B (96 total doors)	Add 32 more doors to the panel, increasing the maximum number of doors to 96.
Encryption (128-bit AES or 256-bit AES)	Enable encryption on XR550 Series panels with Network capability.

Activate a Feature Key

To activate a feature key, complete the following steps.

1. Log in to Dealer Admin.
2. Find the customer and select their system's name.
3. Go to **Full Programming > Feature Keys**.
4. To retrieve existing feature key programming, select **Retrieve Feature Keys**.
5. To get your feature key, call Customer Service at 866-266-2826 and give them the panel serial number from **Serial No**.
6. Enter the key in the text box, then press **Send Key**.

More Information

For more information, refer to the following documents:

- XR150/XR550 Programming Guide (LT-1232)
- Dealer Admin Help
- DMP Guides

Requirements

Feature Key Support requires the following:

- **32 Door Add-On A:** XR550 Series panels with firmware Version 111 or higher
- **32 Door Add-On B:** XR550 Series panels with firmware Version 111 or higher and 32 Door Add-On A
- **Encryption:** XR550 Series panels with Network

No additional configuration is required for feature keys that are already programmed into the panel.

Ordering Information

To order feature keys, email CustomerService@DMP.com or call 866-266-2826.
