

Version 1.4.7 (4/19/22) Technical Update

Effective May 10, 2022, all SCS-VR Virtual Receiver Software will be manufactured with Version 1.4.7 (4/19/22) software.

Log4j Version 2.17.1

Updates have been made to the software that replace all Log4j Version 1.2.15 utilities with Version 2.17.1 to enhance application security and further mitigate all reported vulnerabilities associated with that and other versions.

Obtaining the New Software

Contact the Software Support Team in DMP Technical Support at 1-888-436-7832 for information on updating to SCS-VR Version 1.4.7 (4/19/22).
