

## FEATURE UPDATE | FEBRUARY 2023

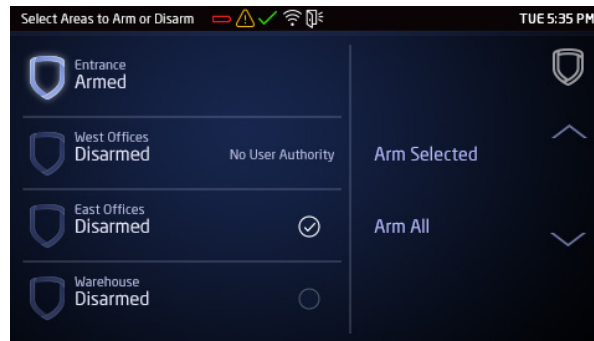

### Version 206 Update

Version 206 (1/27/23) firmware is now available for download at DMP.com. Version 206 is supported by XT30/XT50 and XR150/XR550 Series panels with firmware Version 221 or higher.

Beginning in February, 5-Inch Touchscreen Series Keypads will be manufactured with firmware Version 206 (1/27/23). The following features are included:

#### Graphical Area Arming Screens

Area arming screens have been updated to display armed areas with the shield graphic next to the area.

Graphical area arming is not available for 9800 Series Wireless Touchscreen Keypads or XTLtouch systems.

#### Updated Red Alarm Screens

Alarm screens have been updated to display a brighter red screen when the system is in alarm.

### Obtaining the New Firmware

Firmware updates are available for download, free of charge, at DMP.com. For update instructions, refer to the appropriate product installation and programming guides.

If you have any questions or concerns about implementing this firmware update, contact DMP Technical Support at 1-888-436-7832 or [techsupport@dmp.com](mailto:techsupport@dmp.com).
