Version 731 Update

Updated Version 731 (4/12/24) firmware is now available on XR150INT/XR550INT Series panels.

Panel Improvements

Several cellular communications improvements were made in updated Version 731 (4/12/24). These improvements include better CATM1 network handling by ignoring the NBIOT category and by resetting communications if the cellular communications detect any connection errors.

Obtaining the New Firmware

XR150INT/XR550INT firmware updates are available, free of charge, on Dealer Admin (dealer.securecomwireless.com) or for download from DMP's Product Software Downloads.
