

FEATURE UPDATE

Version 105 Update

DMP is now shipping 738Zplus Z-Wave Interface Modules manufactured with Version 105 (6/5/19) firmware.

Features

Enhanced Z-Wave Appliance Module Support

Version 105 allows users to learn in and control Z-wave devices such as water valves and blind controllers as an appliance in the Z-Wave setup menu.

Z-Wave Thermostat Range

Before, thermostats were limited in range from 55-95 degrees Fahrenheit. With Version 105 firmware, thermostat ranges have been increased to 1-99 degrees Fahrenheit.

Supporting Firmware Updates

The following firmware updates are required in order to support the enhanced Z-Wave appliance module and Z-Wave thermostat range.

- **XT Series/XR Series Version 192**
- **7800/9800 Series Graphic Keypads Version 203**

Obtaining New Modules

New 738Zplus Z-Wave Interface Modules can be ordered by contacting DMP Customer Service at 1-866-266-2826 or by visiting Buy.DMP.com.
