Version 8.3.1 (8/30/19) Update

Effective September 6th, 2019, all Entré Security & Access Management software will be manufactured as Version 8.3.1 (8/30/19).

To use any of the following features, panels must be updated to firmware Version 172 or higher.

Feature

Database Migration Tool (Entré NOC only)

The Database Migration Tool allows you to import information from an existing Remote Link® database. This information includes panel hardware, users, profiles, and schedules. For more information, refer to the Entré NOC How-To Guide: Database Migration. Entré NOC customers can obtain the Database Migration Tool by calling the Software Support Team at 888.436.7832.

Improvements

Operator Profile Assignments

In previous versions of Entré, attempting to reassign an Operator Profile to a workstation generated an error. Entré 8.3.1 enables you to assign or reassign Operator Profiles to any workstation.

Improved Performance

Changes have been made to the database to improve performance of Entré.

Obtaining the New Software

Entré Security & Access Management software Version 8.3.1 is provided to dealers who have previously purchased an Entré license, are current with their Entré support agreement, and who have an Entré Certified Technician.

To upgrade to Entré Version 8.3.1 (8/30/19), please complete the Pre-Upgrade Checklist (LT-1782) before contacting the Software Support Team in DMP Technical Support at 888.436.7832.

Additional Entré information and documentation can be found at DMP.com/Entre.
