Version 2.2.1 Update

Effective February 26, 2019, the Tech APP™ is updated to Version 2.2.1. The following features are available:

Features

Sales and Installation Report Support

You can enter the Installation Type, Sales Person, Installer, and Installation Date from the Tech APP™. This information can be used to run reports on Dealer Admin™ as of Version 2.16. This feature is available for iOS and Android.

Landscape Support for iPads

For technicians using iPads in the field, the Tech APP™ now supports landscape mode for improved readability. This feature is only available for iOS.

FaceID Support for iPhone X and all newer iPhones

The Tech APP™ now supports using your iPhone's FaceID facial recognition software to log in to the app. This feature is only available on iPhone X and newer iPhones.

Improved TouchID Support

The Tech APP™ supports using your iPhone's TouchID fingerprint reader software to log in to the app. TouchID in the Tech APP™ in is now supported on iPhone 8.

Obtaining the New Software

This Tech APP™ update is available for download, free of charge, from the Google Play™ store and the App Store®.
