Version 8.1.1 (10/22/18) Update

Effective November 6, 2018, all Entré Security & Access Management software will be manufactured with updated Version 8.1.1 (10/22/18) software.

Features

Key Fob Improvements

On Entré Version 8.1.1 (10/22/18), an issue was resolved where non-Entré NOC users with Entré 8.0 and 8.1 received invalid key fob communications from Entré to their panels. This caused excessive downloads from Entré to the panels, resulting in panels sending a Remote Programming Complete message to central stations. This issue has now been resolved.

Entré NOC users will see key fob improvements with the Entré Version 8.1.1 (10/22/18) release.

Database Improvements

There have been several updates made to improve database efficiency.

Obtaining the New Software

Entré Security & Access Management software Version 8.1.1 (10/22/18) is provided to dealers who have previously purchased an Entré license, are current with their Entré support agreement, and who have an Entré Certified Technician.

To upgrade to Entré Version 8.1.1 (10/22/18), please complete the Pre-Upgrade Checklist (LT-1782) before contacting the Software Support Team in DMP Technical Support at 888.436.7832.

Additional Entré information and documentation can be found at DMP.com/Entre.
