January 2017

Version 1.5.1 Update

Effective January 16, 2017, the Dealer Admin Site (dealeradmin.securecomwireless.com) is updated to Version 1.5.1 (1/16/17).

New On-Demand Monitoring Features

The Dealer Admin Site now offers an easy process for setting up on-demand monitoring. The features below allow you to set up a Stripe account payment method, add multiple daily pricing options, and enable on-demand monitoring on a customer's account.

Set Up a Payment Method

With Version 1.5.1 (1/16/17) of the Dealer Admin Site, you can add a Stripe account to process on-demand monitoring payments. To add a Stripe account, navigate to **Tools** in the side menu. Click **On-Demand Pricing** and then click **Connect a Stripe Account**. See Figure 1.

For a new Stripe account, enter your information and click **Authorize access to this account**. If you already have an account, click **Sign In** in the top right corner. For questions, visit support.stripe.com.

Add Pricing Options

Now, you can add daily pricing options for on-demand monitoring. Navigate to **Tools** in the side menu and click **On-Demand Pricing**. Click **Edit** and either update the pricing of an existing option or click **Add Option** to add a new pricing option. See Figure 1.

Enable On-Demand Monitoring

To enable on-demand monitoring on a customer's system, navigate to the account and click **Edit**. In the **Add-On Features** section, check the **On-Demand Monitoring** box. Once on-demand monitoring is enabled, choose a pricing option from the **Charge** drop-down menu and enter email addresses for notifications. You can also select the type of panel messages that will be monitored. See Figure 2.

The screenshot shows the 'On-Demand Monitoring' settings page. At the top, there are 'Save All Changes' and 'Cancel' buttons. Below is the 'On-Demand Monitoring Settings' section, which includes a 'Stripe Account Status' field and a 'Connect a Stripe account' button. The 'On-Demand Daily Pricing' section features an 'Add Option' button and a table of pricing options.

	Rate (\$)
Option 1	\$1.00
Option 2	\$1.99
Option 3	\$2.99
Option 4	\$3.99
Option 5	\$4.99
Option 6	\$5.99
Option 7	\$7.01
Option 8	\$5.00

At the bottom of the pricing section is a 'Save All Changes' button.

Figure 1: On-Demand Monitoring Payment and Pricing

The screenshot shows the 'Enable On-Demand Monitoring' form. It starts with a checked checkbox for 'On Demand Monitoring'. Below this is a 'Charge' dropdown menu currently set to '\$2.99'. There are two text input fields for 'Notify Email (Dealer)' and 'Notify Email (Customer)'. At the bottom, there are five checkboxes, all of which are checked: 'Alarms', 'Supervisory/Trouble', 'Communication Troubles', 'Opening/Closing and User', and 'Test Report'.
