

1142 Wireless 2-Button Hold Up Transmitter

December 2016

Hardware Update

All 1142 Wireless 2-Button Hold Up Transmitters are now being manufactured with the new Level A Hardware that was recently announced for 1101, 1102, and 1103 Universal Transmitters. Level A is the latest 900 MHz transmitter and processor PCB design for the 1100 series product line. All operation and installation remains the same. The updated hardware will begin shipping as current stock is depleted which is estimated to occur mid January 2017.

Obtaining the New Hardware

New 1142 Wireless 2-Button Hold Up Transmitters can be ordered by contacting DMP Customer Service at 1-800-641-4282 or by visiting buy.dmp.com.

2G Network Shutdown

Do you have all your 2G accounts upgraded already? The end of 2G is near. On December 31st, 2016, all AT&T 2G systems will cease to operate. This will affect your XT and XTL Series panels with built-in GSM cell modules, as well as your 263G and 463G cellular modules.

For all SecureCom Wireless customers, we have customized reports available to you that list your current 2G communicators still in use.

Get your company's custom report by emailing CustomerService@securecomwireless.com or calling us at 877-300-8030. Find out which of your accounts are still on 2G and update them before it's too late.
