# Remote Link and System Link November 2007

# Version 1.40 Software Update

Effective December 2007, all Remote Link and System Link software are being manufactured as Version 1.40 (11/27/07). This version is an update from the 1.38 (9/27/07) software previously shipped and contains new features.

Remote Link and System Link updates are available for download free of charge on the DMP Dealer Direct Website at <u>http://dmp.com/dealer</u>. Hard copy updates on CD can be obtained at <u>buy.dmp.com</u> or by calling DMP Customer Service at 1-800-641-4282.

## Features

## Batch Import/Export/Delete User Codes

A new option has been added to User Codes to enable importing, exporting or deleting large numbers of users from a panel file at one time.

#### Import User Codes

To import User Codes, click on the **Import tab**. In the File Name field, select the Tab Delimited .txt file containing the user codes to import.

Remote Link requires the following data in this specific order for a successful user import. A header row is not required.

User Number	(maximum 4 digits)
User Name	(maximum 16 character)
User Code	(maximum 6 digits)
User Profile	(maximum 2 digits)
User Pin	(maximum 6 digits) typically 0 (zero)
Description	(maximum 1024 characters)

Note: The User Pin column is required for user code import. If the panel does not require a pin number, populate this field with 0 (zero).

Click Load File to display the user codes contained in the selected .txt file. All user codes eligible for import are automatically checked. A user that already exists in the panel cannot be selected for import.

Click Import to add selected user codes to the panel.

## **Export User Codes**

To export User Codes, select the Export tab. In the File Name field, select a file name and the location to save the User Codes you are exporting. The file is saved as a Tab Delimited .txt file.

All the User Codes programmed in the panel display for selection. Click on the check box next to the user code to export or **Select All**. When selection is complete, click **Export**.

Note: The description field is not exported.

## **Delete User Codes**

To delete User Codes from the panel file, select the Delete tab.

Click on the check box next to the user code to delete, or **Select All**. When selection is complete, click **Delete**.

# **Enhanced Zone Test**

A new option has been added to System Options to enable Enhanced Zone Test operations.

**Enhanced Zone Test:** Select this option to enable Enhanced Zone Test operations. The default is unchecked.

Enhanced operation allows:

- Panic Test and Walk Test functions can be restricted to operate only during an Area 32, Shift 4 schedule if programmed.
- A Verify message is sent each time a zone is tested. If a zone is tripped multiple times, a Verify message is sent for each trip. This allows the Central Station to record the number of devices per zone.

Bption Anwing System Tri Clowing Well	-Xen 💌	Wireless House Code	<u> </u>	Tine Draige Hous from BNT	6

- The Verify message for each zone test is sent at the time the trip occurs instead of at the end of Walk Test.
- The System Test Begin and System Test End Central Station messages indicate the type of zone being tested. The System Test Begin message also includes the user name and number.

## Ordering the New Software

Remote Link and System Link updates version 1.40 are available for download free of charge on the DMP Dealer Direct Website at <u>http://dmp.com/dealer</u>. Hard copy updates on CD can be obtained at <u>buy.dmp.com</u> or by calling DMP Customer Service at 1-800-641-4282.
