

## 491 Firmware Update

---

July 11, 1996

### Version 101 Firmware Update

Effective July 11, 1996, all 491 Load/Save Modules are being shipped from DMP with 491/101 version 7/11/96 firmware installed. This version is an update from the 100 firmware previously shipped and contains a new operational feature to the program.

### New Firmware Feature

#### **XR200 Command Processor™ Panel compatibility**

The 491/101 firmware now allows the 491 module to support loading and saving of XR200 panel programs.

### Ordering the New Firmware

To update your current 491 firmware to 491/101 version 7/11/96, please call our Customer Service department at 1-800-641-4282 and ask for 491/UPDATE. The cost for the update is \$9.50.

### Updating previous version chips

If you have any previous versions of 491 Load/Save Module firmware chips, you can send these to DMP Technical Support for upgrading. DMP technicians will reprogram the chips to 491/101 version 7/11/96 at no charge to you.
