## Version 1.05 Software Update

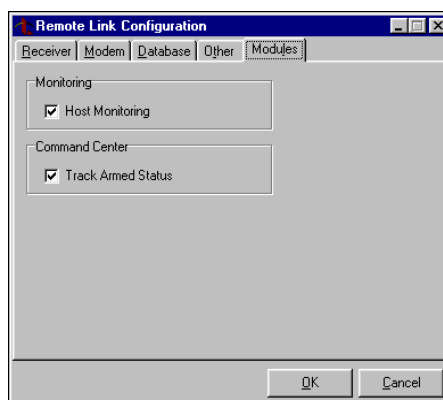

Effective October 10, 2001 all Command Center software is being shipped from the factory as version 1.05 (10/9/01) software. This version is an update from the 1.04 (8/2/01) software previously shipped and contains new features to the program.

## New Features

## Tracking Armed Status

A padlock icon now appears in each segment for an account to indicate that the account has fully armed. When any area is disarmed, the icon is no longer displayed. The padlock icon will only display when **Track Armed Status** is selected on the **Modules Tab**.

**Note:** Only the XR200 (version 110 and above) and XR200-485 (version 204 and above) support this feature.
