521LX	OAP	P	D1	0	300	-	-	-
521LXT	OAP	P(IHD)	D1	0	300	-	-	-

D1 - Listing limited to specific system control unit. Information on compatible control unit indicated on installation drawing of control unit and/or detector.

*7 - Intended for Residential Installations for use with Listed wireless receivers, models 1100D, 1100DI, 1100DH, 1100X, 1100XI, 1100XH.

*8 - Intended for Commercial Installations for use with Listed wireless receiver, model 1100X series.

*9 - Intended for Commercial Installations for use with Listed Panels Models XR100/XR500 and XR150/XR350/XR550 Series.

OAP - Open Area Protection

P - Photoelectric

RF - Includes Integral Radio Frequency Transmitter

IHD - Includes Integral Heat Detector

Date of Manufacture identifies the manufacturing start date of all product models that will use the specific Time of Manufacture Firmware Version. The date of manufacture is noncoded and in the format YEAR (in 4 digits), MONTH (in letters), DAY (in 2 digits).

Time of Manufacture Firmware Version identifies a numerical and/or alphabetic series designation that is product and date-code specific and will only identify the Firmware Version at the time the product was manufactured. The numeric and/or alphabetic sequence is defined by the manufacturer.

Firmware Version Update is a numerical and/or alphabetic sequential identification that is product and date-code specific and sequentially identifies the Firmware Version Update from the previous version of firmware. The numerical and/or alphabetic sequence is defined by the manufacturer.

a - Includes Intergral Audible Signal
