

New Features

Effective March 2nd, 2022, the 711S Zone Expansion Module is updated to Hardware Level 102 and Version 101 (1/6/2022) firmware.

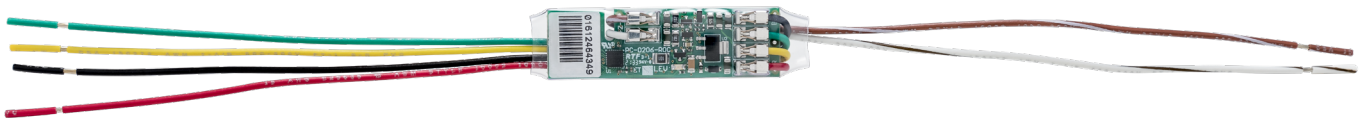

Requirement: This hardware update for 711S Zone Expander Modules requires the following panel firmware and web services software:

- XR Series: Version 213 (12/17/2021) [TU-1267](#)
- XT/Com Series: Version 213 (12/29/2021) [TU-1268](#)
- Remote Link™: Version 2.13 (1/13/2022) [TU-1287](#)
- Dealer Admin™: Version 2.47.4

Serial Number Instead of Rotary Switches

711S Zone Expander Modules are now programmed into the panel via a 10-digit serial number instead of rotary switches. A new **Expander Serial Number** field has been added to **Full Programming > Zone Information** in Dealer Admin.
