

FEATURE UPDATE | MAY 2022

Version 9.0.3 (5/18/22) Feature Update

Effective May 23, 2022, all Entré Security & Access Management software will be manufactured with updated Version 9.0.3 (5/18/22).

Entré 9.0.3 works with panel firmware Versions 181 to 202.

Improvements

Version 9.0.3 (5/18/22) includes several small improvements including automatically sending door schedules, triggering lockdowns with panic zones, and updating zone statuses.

Obtaining the New Software

Entré Security & Access Management software Version 9.0.3 (5/18/22) is provided to dealers who have previously purchased an Entré license, who are current with their Entré support agreement, and who have an Entré Certified Technician.

To upgrade to Entré Version 9.0.3 (5/18/22), please complete the [Pre-Upgrade Checklist \(LT-1782\)](#) before contacting the Software Support Team in DMP Technical Support at 888.436.7832.

Before upgrading, perform a backup of your SQL database using Microsoft SQL Server Management Studio. DMP recommends that you reindex and reorganize the SQL database after upgrading Entré. It is recommended to make this part of your standard database maintenance as described in the Server Maintenance section of the [Entré Installation, Setup, and Server Maintenance Guide \(LT-2494\)](#).

For more information about Entré, visit the [Entré Software](#) page.
