Version 213 Date Code Update

All XT30/XT50 Series Panels and FirstNet Com Series Communicators are being manufactured with updated Version 213 (6/22/22) firmware.

Panel Improvement

Improved Cellular Modem Registration

Updated Version 213 (6/22/22) firmware resolves an issue where FirstNet modems were not able to register with the appropriate APN. This would cause the keypad to display a "NOT REGISTERED" message.

Obtaining the New Firmware

Firmware updates are available, free of charge, on Dealer Admin (dealer.securecomwireless.com) or for download from DMP's Product Software Downloads.
