

V-6000 Series Cameras

Benefits

- Video verification available via Virtual Keypad app and the monitoring center automation software
- Your customers can view live video and events via Virtual Keypad
- Allows commercial users to observe activities, monitor areas or entrances
- Quickly verify whether an alarm is real or false
- Video analytics reduce nuisance notifications

Features

- PoE and Wi-Fi bullet, turret, and cube cameras
- 2MP - 4MP resolution available
- Exclusive EASYconnectVPN™ for encrypted connectivity
- Easy to program in Dealer Admin
- Video analytics, including line crossing, person or vehicle detection
- NDAA Compliant

V-6000 SERIES

Record the Events That Matter

THE POWER OF VIDEO

Video cameras continue to be a crucial part of any intrusion system. DMP's new line of video cameras include additional options and features to provide your customers with greater peace of mind.

- ▶ New camera formats include 2.4 GHz Wi-Fi and hardwired cube, bullets, domes and turrets
- ▶ Select cameras incorporate video analytics, including line crossing, person or vehicle detection
- ▶ Easily add cameras to new and existing systems

RELIABLE DETECTION WITH EDGE ANALYTICS

Event recordings are triggered on detection and stored locally on an upgradable SD card. With analytics, the video system takes an active role in identifying threats and recording actual events, rather than having hours of passive footage to comb through.

EASYCONNECTVPN™

A virtual private network (VPN) is one of the most essential tools for your customers to protect their businesses and homes, ensuring that video sent to SecureCom Wireless servers via the Internet remains private.

- ▶ Encapsulates and encrypts traffic before it is sent over the Internet
- ▶ Private firmware exclusively for SecureCom and DMP
- ▶ Standard protocol for cameras and NVR's

VIRTUAL KEYPAD™

Virtual Keypad enables your customers to manage their video clips, including:

- ▶ View live video
- ▶ View events
- ▶ Export/Save
- ▶ Filter by event type

REDUCE FALSE ALARMS

Recorded clips are sent with alarm notifications. Your monitoring center and customers can quickly verify if an alarm is real or false.

- ▶ Eliminates fines incurred for police dispatches to false alarms
- ▶ Faster police response due to professional verified alarms

Edge Analytics

Live and recorded clips viewable over mobile app, web browser and 8860 Touchscreen Keypads

EasyConnectVPN

Flexible Solutions for Any Application

BULLET

Best for outdoor installations, where wide open views such as parking lots, or roads are available or convenient. A V-6012WB-A is best installed on a wall, light poles in a lot or under an overhang near a building.

CUBE

The smallest size of all camera options, the V-6022WC can be **placed quickly and easily into any room** in your home or business. With a sleek, low profile design a cube camera can be at home anywhere you need it.

TURRET

A camera that can keep up with the ever-changing surroundings of **a busy location**. The V-6044T offers analytic detection, outstanding low light visibility and **easy adjustment to view** exactly what your customer needs to see.
