

TECHNICAL UPDATE | FEBRUARY 2024

Version 231 Update

Updated Version 231 (2/8/24) firmware is now available on XR150/XR550 Series panels.

Panel Improvements

Schedule Override Update

When there is a valid card swipe with appropriate permissions on a door with Schedule Override enabled during a schedule, the door will relock after the strike time expires.

Temporary Schedule Update

If there is a valid card swipe with appropriate permissions on a door during a time of an inactive temporary schedule and Schedule Override is enabled, the door will relock.

Obtaining the New Firmware

XR150/XR550 firmware updates are available, free of charge, on Dealer Admin (dealer.securecomwireless.com) or for download from DMP's [Product Software Downloads](#).
