

FEATURE UPDATE | JANUARY 2025

New Features

Custom credential pool size is now available for Mobile Wallet Credentials on Dealer Admin.

Credential Pool Update

This update allows greater flexibility and granularity when assigning a pool of credentials. Previously, credentials were selected from a static pool, offering customers 5, 10, 25, 50, 100, 250, 500, 750, or 1000 credentials. Now, a custom pool size is available which increases by increments of 5 to a maximum of 1,000.
