

FEATURE UPDATE | OCTOBER 2018

Version 2.13.1 Update

Effective October 9, 2018, the Dealer Admin (DMPDealerAdmin.com) is updated to Version 2.13.1. The following feature is available for XT Series panels with Version 122 and higher and XR Series panels with Version 109 and higher.

Feature

Auto Programming Sync

When a change is made locally through a keypad or Remote Link, Dealer Admin will reflect the change without having to refresh the page. These changes will be labeled **Auto Programming Sync** in the Activity section and will include the section that was changed.
