

## FEATURE UPDATE | MAY 2018

### Version 172 Update

Effective May 10, 2018, all CellComSLC Series Universal Alarm Communicators will be manufactured with Version 172 (4/23/18) firmware. Updated units will begin shipping as current inventory is depleted.

### Feature

#### **Sunrise/Sunset Support (CellComSLCZ Only)**

Sunrise/Sunset schedules use local weather information to stay synced with sunrise and sunset times throughout the year. You can set the schedule to activate or deactivate 5, 10, 15, 30, 45, or 60 minutes before or after sunrise or sunset. Sunrise/Sunset schedules can be applied to Favorites or Outputs on CellCom Series Universal Alarm Communicators.

In order to use the Sunrise/Sunset schedules on the CellComSLCZ, a weather zip code must be entered in System Options using Remote Link™ or in Fast Programming using the Dealer Admin site (DMPDealerAdmin.com).

### Obtaining the New Firmware

Firmware updates are available for download, free of charge, on the DMP Dealer Direct website at [DMP.com/Dealer\\_Direct](http://DMP.com/Dealer_Direct).
