

1142 Two-Button Wireless Transmitter

October 2017

Plastic Housing Update

White 1142 Two-Button Wireless Transmitters are now being manufactured with an updated case design. Updated devices will begin shipping immediately.

Updated Case Design

The 1142 case now features a streamlined and more durable plastic design. To open the case, insert a 3/16" slotted tip screwdriver in Tab 1 and twist it clockwise. Insert the screwdriver in Tab 2 and twist it counterclockwise. See Figure 1.

Firmware features remain the same.
