XT and CellComSLC Series
January 2017

Version 125 Firmware Update

Version 125 (12/29/16) firmware is now available for download on the DMP Dealer Direct Website at http://dmp.com/dealer.

Effective January 5, 2017, the following control panels will be manufactured with updated Version 125 (12/29/16) firmware. All inventory will be updated immediately and begin shipping Thursday, January 5, 2017.

Compatibility

- XT30/XT50 Series Panels
- XTLplus Series Panels
- CellComSLC and CellComSLCF Universal Alarm Communicators

Updated Functionality

Cellular Activation

In some Verizon service areas, an issue has been observed where CDMA modems are unable to complete keypad cellular activation and installers see CELL IS BUSY for an extended period of time. Version 125 (12/29/16) addresses that issue and allows keypad cellular activation to take place as long as the modem is able to communicate with a Verizon home tower.

Obtaining the New Firmware

Firmware updates are available for download, free of charge, on the DMP Dealer Direct Website at http://dmp.com/dealer.
