

1100DI Wireless In-Line Receiver

December 2016

Hardware Update

All 1100DI Wireless In-Line Receivers are now being manufactured with an updated case design. Updated units will begin shipping as current stock is depleted which is estimated to occur mid January 2017.

New Case Design

The 1100DI case now features a streamlined plastic design that is easy to open and close. To open the case, press the button on the end of the 1100DI and gently pull up on the receiver cover. See Figure 1.

It also includes a PCB latch that allows installers to easily remove the PCB by pressing the latch with their thumb. See Figure 2.

Standard software features remain the same.

Obtaining the New Hardware

New 1100DI Wireless In-Line Receivers can be ordered by contacting DMP Customer Service at 1-800-641-4282 or by visiting buy.dmp.com.

2G Network Shutdown

Do you have all your 2G accounts upgraded already? The end of 2G is near. On December 31st, 2016, all AT&T 2G systems will cease to operate. This will affect your XT and XTL Series panels with built-in GSM cell modules, as well as your 263G and 463G cellular modules.

For all SecureCom Wireless customers, we have customized reports available to you that list your current 2G communicators still in use.

Get your company's custom report by emailing CustomerService@securecomwireless.com or calling us at 877-300-8030. Find out which of your accounts are still on 2G and update them before it's too late.
