

September 2016

**Version 1.4.10 Update**

Effective August 15, 2016, the Dealer Admin Site (dealeradmin.securecomwireless.com) is updated to Version 1.4.10.

**Features****New Camera Options**

The Dealer Admin Site offers new options for controlling NVR-connected cameras through the Virtual Keypad App. Now, when adding or editing a ceiling-mounted camera, dealers can select the Flip Image option to reorient the image. Dealers also have the option of turning on the Pan/Tilt feature. This allows users to control the movement of their pan/tilt camera through their app. See Figure 1.

**2G Network Shutdown**

Do you have all your 2G accounts upgraded already? The end of 2G is near. On December 31st, 2016, all AT&T 2G systems will cease to operate. This will affect your XT and XTL Series panels with built-in GSM cell modules, as well as your 263G and 463G cellular modules.

For all SecureCom Wireless customers, we have customized reports available to you that list your current 2G communicators still in use.

Get your company's custom report by emailing [CustomerService@securecomwireless.com](mailto:CustomerService@securecomwireless.com) or calling us at 877-300-8030. Find out which of your accounts are still on 2G and update them before it's too late.

Visit <https://www.dmp.com/2GSunset/> for more information.
