
Remote Link™

June 2016**Version 1.79 Software Update**

Effective July 1, 2016, all Remote Link™ software is being shipped as Version 1.79 (6/22/16). If your current Remote Link™ software is previous to Version 1.46, update to Version 1.59 before updating to 1.79 (6/22/16).

Features

Remote Link™ Version 1.79 (6/22/16) now supports the following feature:

Backup and XR Cellular Rate Plans

With Version 1.79, the “Backup: Back-up communication, flat rate.” rate plan is available for XT and XR Series panels. This plan has been available since January 2016 for XT Series panels and has now been extended to XR Series panels. It includes a daily test and provides a specific rate option for panels that are set up with a cellular backup. To access this feature, Cellular must be set as a secondary connection type in panel programming.

The “XR: Flat Rate, No Overages, Includes Daily Test and O/C.” rate plan is now available for XR Series panels with a primary cellular path. This rate plan includes a daily test, as well as opening and closing reports. Similar to the XT and XTL rate plans, the XR rate plan is set at a flat rate and does not incur overage charges.

Obtaining the New Software

Remote Link and System Link Version 1.79 (6/22/16) updates are available for download free of charge on the DMP Dealer Direct Website at <http://dmp.com/dealer>.
