

## Remote Link and System Link

March 2015

### Version 1.73 Software Update

Effective March 13, 2015, all Remote Link and System Link software is being manufactured as Version 1.73 (3/9/15). If your current Remote Link or System Link software is previous to Version 1.46, update to Version 1.59 before updating to 1.73 (3/9/15).

### Features

#### Backup Connection Information

A new section in Panel Information is available for Backup Connection Information when Remote Link or System Link fails to connect using the primary connection information.

The screenshot shows two sections of a software interface. The top section, titled "Connection Information", contains a "Type" dropdown menu set to "Network", a "Remote Key" text field, an "IP Address" text field containing "192.168.62.115", and an "IP Port" text field containing "2001". The bottom section, titled "Backup Connection Information", contains a "Type" dropdown menu set to "Cellular" and a "Phone Number" text field containing "4175736666". Below these sections is a "Location" text field.

Remote Link or System Link will try two times using the primary information before attempting to connect to the panel using the Backup Connection Information. "Switching to backup connection." displays bold and red when the primary connection has failed. Remote Link or System Link will try two times using the backup information before aborting connection.

The screenshot shows a "Connection Status" dialog box with a title bar containing a red arrow icon and standard window controls. Inside, there is a "Connection Information" section with an "Account" text field containing "12345". Below this is a large text area displaying the following status messages: "Connecting to panel.", "Unable to connect to panel.", "Switching to backup connection.", "Connecting to panel on backup connection.", and "Connected to SecureCom. Waiting for panel to connect." At the bottom of the dialog are four buttons: "Connect", "Abort", "Disconnect", and "Cancel".

### Obtaining the New Software

Remote Link and System Link Version 1.73 (3/9/15) updates are available for download free of charge on the DMP Dealer Direct Website at <http://dmp.com/dealer>.
