

Remote Link and System Link August 2014

Version 1.71 Software Update

Effective August 22, 2014, all Remote Link and System Link software is being manufactured as Version 1.71 (8/21/14). If your current Remote Link or System Link software is previous to Version 1.46, update to Version 1.59 before updating to 1.71 (8/21/14).

Feature

CellComSL Rate Plan

A new SecureCom Wireless rate plan has been added for activation of CellComSL Series Universal Alarm Communicators.

The CellComSL rate plan is a flat-rate plan recommended for use with the CellComSL.

The screenshot shows a software window titled "Activate SIM / MEID". It contains several input fields and buttons. The "Account" field has a range from 1 to 256 with a "Load" button. The "Status" is "Unused" with an "Activate" button. The "SIM Type" has three radio buttons: "Level 200 SIM", "Level 400 SIM", and "MEID" (which is selected). The "SIM / MEID" field contains the value "A1000013E36F35". The "Rate Plan" dropdown menu is open, showing a list of options. The selected option is "CellComSL: Daily test, flat rate.". Below the dropdown, there is a list of other rate plans with their descriptions. At the bottom, a note states: "Rate plan changes will be automatically sent to SecureCom Wireless, LLC."

Rate Plan	Description
406:	Back-up or primary path with a daily test.
408:	Primary path with an hourly check-in and O/C reports up to 4 areas.
410:	Primary path with an hourly test and O/C reports up to 8 areas.
416:	Primary path with a 6 min check-in and O/C reports up to 8 areas.
425:	Primary path provides for 4 min check-in, O/C reports for up to 16 areas.
435:	Dual Primary paths provide for 6 min check-in, O/C reports up to 8 areas.
445:	Dual Primary paths provide for 4 min check-in, O/C reports up to 16 areas.
CellComSL: Daily test, flat rate.
