

## 780 Keypad Demonstrator Module

February 2014

### Version 104 Software Update

Effective February 12, 2014, all 780 Keypad Demonstrator Modules will be manufactured with updated Version 104 (2/11/14).

### Features

#### Enhanced Weather Information

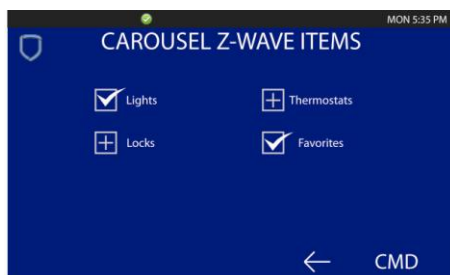

The simulated Weather Information displayed by the 780 has been updated to reflect current XR550 Series and XT Series Control Panel operation. The following information is displayed on the home screen of 7800 Series Graphic Keypads operating with Version 102 (10/22/14) or higher software and in the Status List of 7000 Series 32-Character Keypads:

- Today's forecasted high and low temperatures
- The current weather condition and temperature
- Tomorrow's forecasted high and low temperatures
- Tomorrow's forecasted weather condition

#### Simulated Z-Wave

The 780 now displays simulated Z-Wave devices when connected to 7800 Series Graphic Keypads operating with Version 102 (10/22/14) or higher software. Icons are displayed for Lights, Locks, Thermostats and Favorites.

#### Programming the 7800 Keypad for Z-Wave Demonstrations

Access the Options screen on the Carousel menu and press Installer Options. Enter the code 3577 (INST) and press COMMAND. Select KPD OPT and press COMMAND until Carousel Z-Wave Items is displayed.

Select the Z-Wave options to be displayed in the Carousel Menu on the main screen. Press the item to select and a check-mark displays. Press again to de-select. Items for the Carousel include Lights, Locks, Thermostats, and Favorites.

#### Alarm Verification

For All/Perimeter and Home/Sleep/Away systems, when a four digit code is entered to silence the simulated burglary alarm the keypad now displays IS THIS A FALSE ALARM? NO YES.

### Obtaining the New Software

To update to Version 104 (2/11/14) software, return any 780 module to DMP and simply indicate "Update to Latest Software" on the 6-digit Repair Authorization Tag. The update will be done as a Warranty Repair at no charge, regardless of when the 780 was purchased. If a 780 is returned for other repair needs, this update will be automatically performed as standard repair procedure. If you need Repair Authorization Tags, contact DMP Customer Service at 1-800-641-4282.
