

Virtual Keypad App June 2012

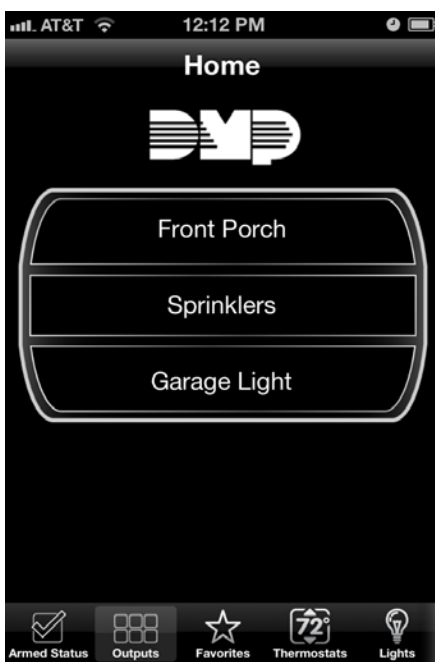

Version 3.0.1 Software Update

Effective June 21, 2012, the Virtual Keypad™ App for the Apple iPad/iPhone has been updated to version 3.0.1 and contains the following updated operation.

Updated Operation

Output Control

When a user updated to Version 3.0.0 of the Virtual Keypad App, the Outputs tab incorrectly became unavailable preventing users from controlling panel outputs. After updating to Version 3.0.1, users can now access the Outputs tab to control previously configured panel outputs.

Obtaining the New Software

Virtual Keypad App updates are available for download free of charge from the Apple App Store.
