

1135 Wireless Siren

April 2010

Hardware Update

Effective May 2010, all 1135 Wireless Sirens are being manufactured with Level C hardware. This version is an update from the Level B hardware previously shipped.

Updated Hardware

Tamper Protection

The 1135 Level C hardware now provides wall tamper protection to meet UL 1610 Commercial Burglary standard. The 1135 is listed to:

- ANSI/UL 1610 Central Station Burglar Alarm Units
- ANSI/UL 1023 Household Burglar Alarm System Units
- ANSI/UL 985 Household Fire Warning System

Older 1135 Level B Wireless Sirens built prior to the UL listing cannot be updated to Level C.
