

9060 and 9063 Wireless Keypads April 2010

Version 200 Software and Level B Hardware Update

Effective May 2010, all 9060 and 9063 Wireless Keypads are being manufactured with Version 200 (4/22/10) software and Level B hardware. This version is an update from the Version 200 (3/17/10) software and Level A hardware previously shipped.

Updated Operation

Tamper Protection

The 9060 and 9063 Level B hardware now provides wall tamper protection to meet UL 1610 Commercial Burglary standard. The 9000 Series are listed to:

- ANSI/UL 1610 Central Station Burglar Alarm Units
- ANSI/UL 1023 Household Burglar Alarm System Units
- ANSI/UL 985 Household Fire Warning System

Version 200 software supports the Level B Hardware update. Older 9060 and 9063 Keypads built prior to the UL listing cannot be updated to Level B.

Enable Tamper Option

A new option has been added to the Keypad Options menu just after ALL? NO YES DELAY that allows the installer to enable or disable the built-in tamper switch for wall tamper protection.

ENABLE TAMPER?

NO YES

Enable Tamper?

Select YES to enable wall tamper protection. Default is NO.
