

## 1100XH Wireless Receiver

April 2010

---

### Version 108 Software and Level C Hardware Update

Effective May 2010, all 1100XH Wireless High Power Receivers are being manufactured with Version 108 (4/2/10) software and Level C hardware. This version is an update from the Version 107 (8/26/09) software and Level B hardware previously shipped and contains new features.

### Feature

#### Tamper Protection

The 1100XH PCB Rev 2, Level C hardware now provides front cover and rear wall tamper protection to meet the pending UL listing requirements for commercial fire as per ANSI/UL 864 Fire Protective Signaling Systems.

Version 108 software supports the Level C Hardware update. Older 1100XH Level B Receivers built prior to the UL listing cannot be updated to Level C.
