

Entré Security & Access Management Software January 2010

Version 7.7.3 Software Update

Effective January 2010, all Entré Security & Access Management software is being manufactured as Version 7.7.3 (12/18/09). This version is an update from the Version 7.7.1 (6/18/09) previously shipped and contains updated operations.

Updated Operation

Output Schedules

Entré now allows users to assign schedules to individual outputs.

Previously they could only assign schedules to doors.

User Codes

Entré now correctly sends user codes to panels with version 204 firmware.

Previously, Entré would only send the codes correctly every other time.

Holiday Dates

Entré now correctly sends Holiday dates to the panel.

Previously, Holiday dates were only sent from Remote Link.

Remote Keys

Entré now supports remote keys greater than 6 characters.

Previously Remote Keys greater than 6 characters in length would cause the user codes to be encrypted and not function in the panel.

Badging Module

Entré now allows high resolution images to be used in the badging module.

Previously the Entré driver would stop if several badges were printed using high resolution images.

Upgrading/Ordering New Firmware

Entré Security & Access Management Software Version 7.7.3 update may be obtained by calling DMP Customer Service at 1-800-641-4282 and ordering ENTRE/UPDATE.
