# Remote Link and System Link May 2009

# Version 1.48 Software Update

Effective May 2009, all Remote Link and System Link software is being manufactured as Version 1.48 (5/26/09). This version is an update from the Version 1.48 (5/7/09) previously shipped and contains updated operations.

# **Updated Operation**

#### Serial Port Programming

The Auxiliary (A2) port Usage drop-down has been updated to display 'Auxiliary' as the default selection. Previously, this field was blank.

n Receiver Serial Port Programming				_ 🗆 🗙
-Auxiliary (A2	2)			
Baud Rate	9600	-		
Usage	Auxiliary	•		
⊢Host Outpu	t (A3)			
Baud Rate	9600	•		
11	Host Output	-		

## **Programming Zone**

Remote Link now properly allows zone 80 to be programmed for new XT50 Series panel accounts using software Version 101. This did not affect pre-existing accounts.

Previously the following error message would display: "This zone requires Built-in 1100 wireless to be enabled in the System Options menu".

## **Obtaining the New Software**

Remote Link Version 1.48 is available for download free of charge on the DMP Dealer Direct Website at <u>http://dmp.com/dealer</u>.
